

### INVESTMENT OBJECTIVE AND APPROACH

The fund aims to achieve investment growth over 3 – 5 years.

We invest in a small number of companies where we have developed an in-depth understanding of their business. We look for a track record of strong operating performance, financial discipline and a purchase price that does not require undue optimism about the future. As long-term investors, company valuations matter to us as a great business will only make for a great investment at the “right” price.
